Meeple Melee

a meeple-rolling combat game by Don Schwarz

Roll meeples like dice!

- Standard meeples act like weighted, 3-sided dice.
- Probabilities: ½ laying down, ⅓ on side, and ⅙ standing up

After rolling, take actions to influence meeple orientation

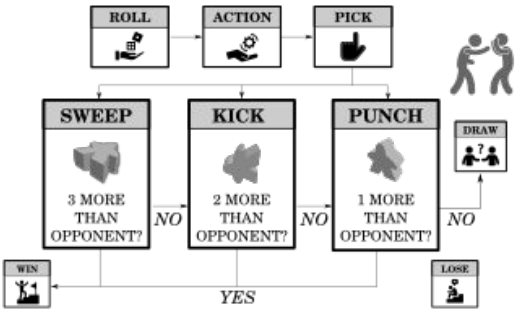
- Reroll any number of meeples; or
- Change 1 meeple to any orientation.
- More actions in later rounds serve as a catch-up mechanism.

Both players choose which meeples to reveal

- **Meeple counts decrease throughout the game.**
- **Each meeple count requires a different strategy.**

Solo mode - fight luck with skill

- Roll meeples behind a screen for your opponent.
- Solo board gives opponent an advantage on meeples but no actions.



Components

- 2 small screens (3.5”x5” folded)
- 3 mini-boards (3.5x”5”)
- 16 standard meeples (8 per color)

Flexible themes

- Breakdancing battles
- Gym class
- Yoga Warfare
- Dice Gods
- *... and many other theme possibilities.*
